Fitness Classes

Port de Bras

Port de Bras ("carriage of arms") is a series of movements made by passing the arms through various positions, in order to make the arms move gracefully and harmoniously. This class targets upper-body strength, definition and coordination, and is designed to tone lean, sculpted arms (specifically the upper arm where we develop the dreaded "chicken wing"!). Using only your own body weight as resistance, we avoid building bulk, resulting in lean "ballerina arms". Full body flexibility exercises are also included in this class.

Parent & Me Swim Lessons

Swimming is a great way to bond with your child! There is strong evidence that physical touching, hugging and playing is critical to a child's cognitive development. Indy Parks Swim School Parent and Me classes are designed for children 6 months to 4 years and focuses on play as learning. In this class, parents will help their child begin to explore the water through songs and games while introducing skills in submerging, floating, kicking and water safety. At a comfortable 1:10 ratio, you and your child will receive important individual attention from the instructor while also benefitting from the group setting by meeting other children who are similar in age and skill level.

The Indy Parks Swim School Preschool swim lessons are designed for children 3 years to 6 years and will concentrate on becoming more comfortable in the water and strengthen students' ability to perform skills independently. Skills taught at this level will include proper front and back floating, kicking, gliding, treading water and successfully performing front crawl. Skills are age appropriate with a 1:3 ratio and will prepare the child for success in youth level classes. Youth Swim Lessons

Children who know how to swim not only can save themselves when in water, but are far more equipped to recognize the dangers of water. Indy Parks Swim School Youth swim lessons are designed for children 5 and over and will cover a broad range of core swimming skills helping students become proficient in the four basic strokes of freestyle, backstroke, breaststroke and butterfly as well as basic water safety. The 1:6 ratio allows students to move through each level at their own pace while building endurance in the water and working on stroke perfection and technique. Children should be ready for stroke development and be able to sit through a 45 minute class.

Indy Parks Swim School

Parent & Me

Swimming is a great way to bond with your child! There is strong evidence that physical touching, hugging and playing is critical to a child's cognitive development. Indy Parks Swim School Parent and Me classes are designed for children 6 months to 4 years and focuses on play as learning. In this class, parents will help their child begin to explore the water through songs and games while introducing skills in submerging, floating, kicking and water safety. At a comfortable 1:10 ratio, you and your child will receive important individual attention from the instructor while also benefitting from the group setting by meeting other children who are similar in age and skill level.
